Wu Xing

(五行)

The Chinese term Wu Xing, meaning “five processes” or “five phases”, refers to a fivefold conceptual scheme that is found throughout traditional Chinese thought. These five phases - metal, wood, water, fire, earth - are regarded as dynamic, interdependent modes or aspects of the universe’s ongoing existence and development. The Wu Xing system has been applied to the explanation of natural phenomena and extended to the description of aesthetic principles, historical events, political structures, and social norms, among other things. At Duddell’s London, we use it to clarify the character of the wine...

Château Mouton Rothschild

After a first initiative, ahead of its time, with the poster artist Jean Carlu in 1942, Baron Philippe Rothschild waited until 1945 to finally establish a tradition that would henceforth become the visual hallmark of Mouton Rothschild. From one label to another, Mouton Rothschild has thus brought together some of the most celebrated artists of their day, including Pablo Picasso, Andy Warhol, Salvador Dali, Miró and even Prince Charles, Prince of Wales.
